## ***Our Vision***

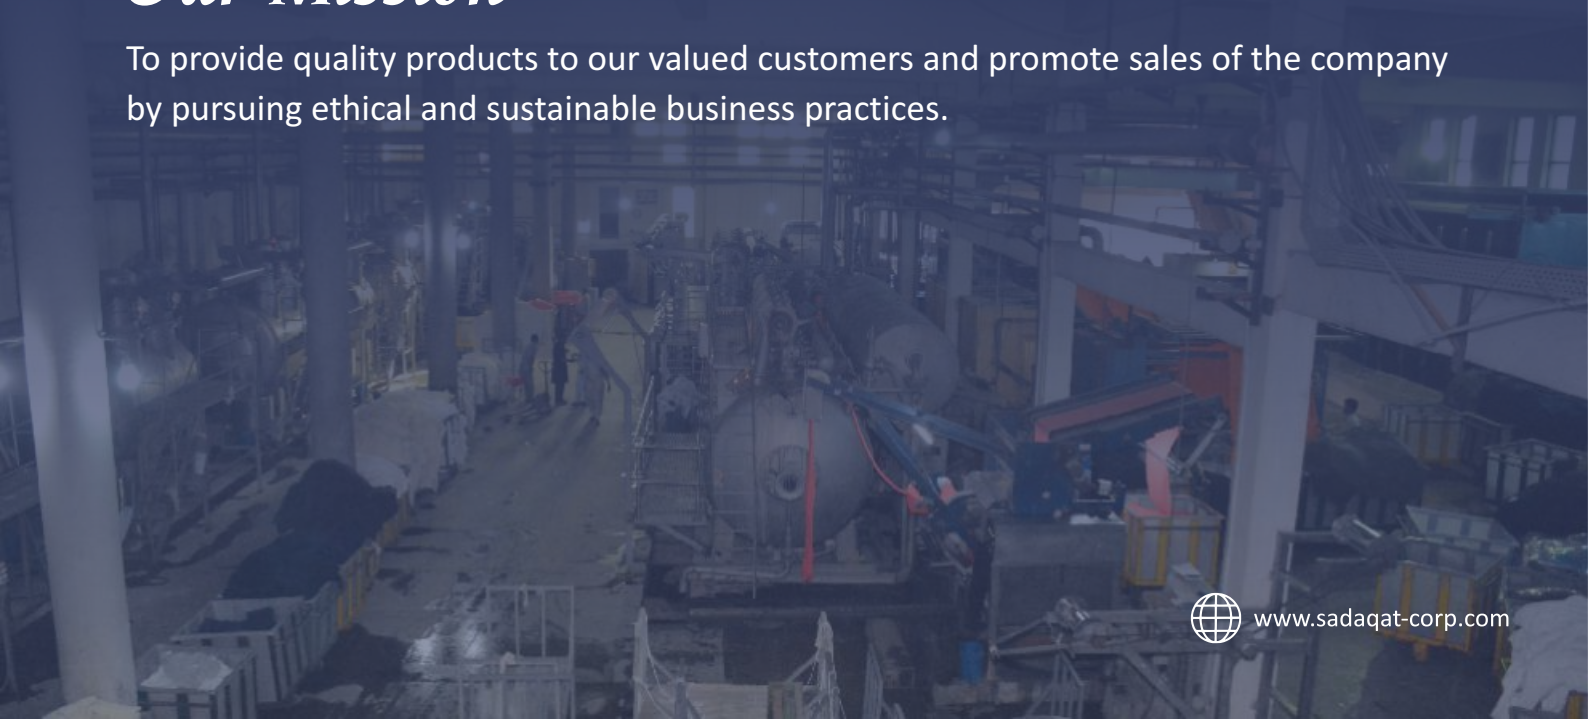

*We strive to compete with the leading players in the global garments business by providing the best value to our customers through value addition, process improvement and nurturing talent.*

## ***Our Mission***

To provide quality products to our valued customers and promote sales of the company by pursuing ethical and sustainable business practices.

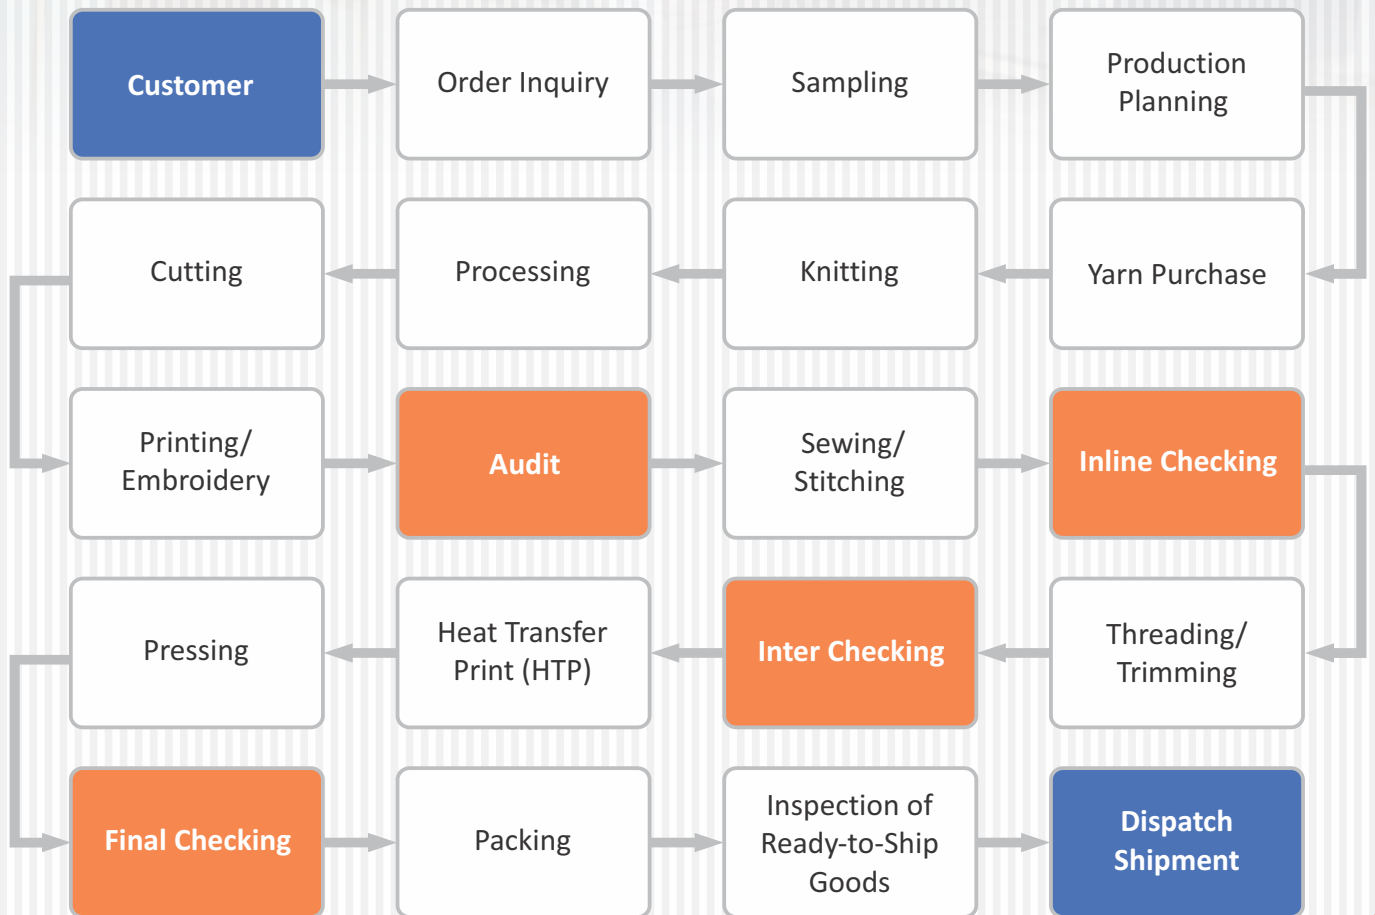

# *Environmental Policy*

We are a professional and environmentally conscious organization, which acknowledges the impact that our operations may potentially have on the environment.

- We raise employee environmental awareness and encourage action in the workplace and at home.
- We minimize raw material use, waste and emissions through careful design, contract specification and process control.
- We allocate suitable and sufficient resources which enable the company to achieve its environmental aims and objectives
- We ensure that all of our operations are completed in accordance with the environmental protection ethics.
- We periodically review our policy to improve how we operate.

# The Process

## *Knitting*

**Sadaqat Corporation (Pvt) Ltd.** has in house Knitting Department which contains various kind of Knitting Machines as Flat Back knitting Machines, Twill Tape, Draw Card, Rib and Circular Knitting machines with different production capacity as under:

Circular Knitting machines: 30

We have both single knits and double knit machine

The knitting capacity of **Sadaqat Corporation** is around 10000 kg fabric per day and 200,000 kg per month. Apart from this we do also out-source knitting services to cater demand of the fabric.

We are also planning to increase our production capacity to around 15,000 kg per day.

## ***Fabric Dyeing***

**Sadaqat Corporation (Pvt) Ltd.** has a well-resourced in-house dyeing facility which comprises of different dyeing and finishing machines having collective production capacity of 15 Tons per day.

We have state of the art machines to dye 100% Polyester, 100% Cotton, Polyester/cotton mix, Polyester viscos and other mix blended fabrics.

## ***Processing***

Our finishing department comprises of Slit, Squizer, Hydro Extractor, Dryer, Stanter, Tumble, Raising, Sueding, Tubular Compactor and Open Width Compactor finishing machines. Automatic hydro-extractors and slitters for the removal of moisture from dyed fabric, dryers for instant fabric drying, computerized compaction machines for complete shrinkage control, and tumble dryers to give minimum shrinkage value and all other machines perform relevant task in completion of finishing fabric. A dedicate team of quality control and quality assurance inspects the fabric thoroughly before handing over to next department.

## Cutting & Pattern Making

We have different cutting machines, like latest Gerber Technology (CAD/CAM system for pattern designing and grading) and recently installed Italian branded IMA Auto Cutter complete setup (Its auto lay marking and plotting is state of the art, which helps us to reduce fabric wastage and enhance the fabric usability). Adding to above, our manual laying and cutting setup is running parallel to meets the needs of cutting induction for our stitching units.

## Embellishment Printing/Embroidery

**Sadaqat Corporation (Pvt) Ltd.** has its own in-house Embroidery department. We have 8 embroidery machines of Tajima and Barudan brand. All the machines are 20 heads with multi-color embroidery options/facilities. Our embroidery capacity is 6000-8000 pcs per day.

## *Stitching*

**Sadaqat Corporation (Pvt) Ltd.** has a purposeful state of the art stitching building which comprises of 4 floors with over all capacity of 800-900 stitching Machines. Currently we have around 800 different stitching machines operational /in working having capacity of 30,000 to 35,000 pcs per day and around 0.7 M pieces per month.

We have Lock Stitch, Over Lock, Flat Lock, Button Attach, Button Hole Bar Tack, EYELET, tape cutting, Fusing/lining attachment and auto clipping. This give us flexibility at the same time to produce many types of High level Sportswear and also high-end fashioned garments too under the vigilance of our highly skilled and experienced technical team of professionals in production and quality which ensure the tailoring art of stitching. The main key player to our success is our customer's satisfaction.

## *Finishing, Packing & Shipping*

At **Sadaqat Corporation (Pvt) Ltd.**, we have symmetrical stitching floors with individual finishing and packing Units/departments. Every stitching floor is responsible to pack the garments of its own unit.

Altogether we have around 30,000 to 35,000 pcs. packing/shipping capacity of the garments per day.

## Inspection & Quality Control

Our Inspection department is very strong and conduct inspection on each level of production process. Our inspectors identify varying levels of defects including:

**Critical Defects** – hazardous or unsafe conditions or non-compliance with regulations, includes sharp points or edges, stray needles left in the garment, loose studs or missing suffocation warning labels.

**Major Defects** – overall product failure or reduced usability of the product that prevents it from being placed on the market, can include open seams, holes or broken stitches.

**Minor Defects** – unlikely to reduce product usability, includes items such as loose threads.

**Fabric Check** – assesses weight (sweaters), print quality, defects, hand feel to standards.

**Garment Labeling** – to ensure label contains all required information, including registered identification number (RN), country of origin, fabric content/care and attachment of label in the proper location.

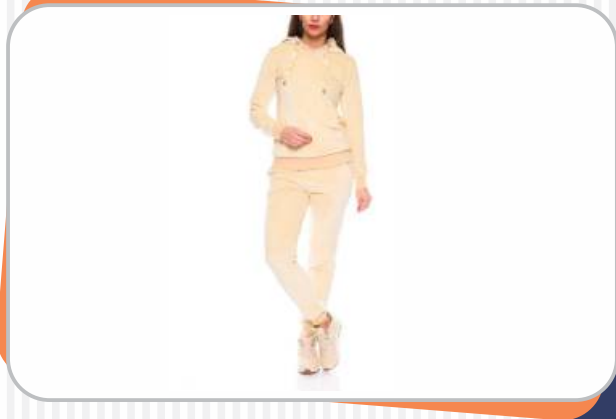

**Workmanship Audit** – evaluates stitching, construction, attachments, embellishments, shading within a garment, pattern continuity/matching, tapes and linings.
